REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: although the imidazoles and the inorganic phosphorous compounds are known pesticides, examiner finds the prior art fails to anticipate or fairly suggest the instant claimed synergistically effective compositions, disclosed as curative, or a suggestion efficacy with reduction in amounts of either active imidazole or phosphorous compound.

Withdrawn composition claims are re-instated, while the methods as claimed would require further search and are cancelled as drawn to an invention which was not elected and not traversed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
